

First Last

Compliance Engineer with twelve years of experience managing regulatory standard activities, researching, performing quality control inspections, and monitoring production activities to guarantee 100 percent project compliance.

WORK EXPERIENCE

Compliance Engineer November 2015 — Present
Resume Worded, New York, NY

- e Provided bi-weekly reports, or when ordered or demanded, to keep the board's cooperating compliance panel and top management up to date on the functioning and success of compliance initiatives.

- e Invented, tested, and enforced schematics for compliance while maintaining 100% documentation accuracy on the database.

- e Collaborated with engineers and inventors to ensure that all goods were fully compliant and that no issues arose. Patronage has increased by 80%.

- e Predefined compliance test standards, performed at least 9.5 percent diagnostic procedures, and troubleshoot and analyzed findings.

Compliance Engineer June 2013 - October 2015
Growths, San Francisco, CA

- e Reviewed product designs for UL standards UL8750 and UL1598 compliance, as well as provided technical advice and support on regulatory and product compliance challenges reducing regulatory bans by 70%.

- e Requested suitable tests from an internal Data Acceptance Program (DAP) lab, and reviewed test data to establish passing results and UL standard compliance; generated annual profit of \$90m.

- e Organized employee's project time by developing project management documents such as a quality control plan, a record and document management system, and a project workflow structure with 100% achievable project milestone markers as well as end goals.

Compliance Operator August 2010 - January 2013
Resume Worded's Exciting Company, New York, NY

- e Updated lab drawing and methods to meet company standards. Labs were found to be in at least 95% conformity with business standards.

- e Prepared datasheet packages and UL product descriptions that reflected proper components and assembly, ensuring that the items were 100% usable.

e Conducted internal audits to guarantee that the customer Test Data Program was met 100 percent, and ISO audits were conducted to confirm that all equipment and paperwork complied with ISO 17025.
